Local Plan Authority's Monitoring Report

Social Infrastructure Indicators

Covering 2010/11 – 2015/16

1. Introduction

1.1 This Monitoring Report is one of several publications which assess the effectiveness of planning policies in the borough. Such reports will be published in a phased approach on the Council's website.

2. Data sources

2.1 The data used in this report comes from the Council's decisions analysis monitoring system and data includes planning applications with a social infrastructure element which were completed between 1st April 2011 and 31st March 2016.

3. Contents

3.1 This report monitors all gains and losses of floorspace that include the use classes in Table 1 below. Any ancillary space to the main use is included.

Table 1: Use Class codes

CODE	DESCRIPTION
A4	Drinking establishment (Pubs)
D1A	Education non-residential
D1B	Crèche or nursery
D1C	GP Surgery
D1D	Museum, art gallery, public hall etc.
D1E	Place of worship, church hall
D1Z	D1 no further category
D1F	Dentist
D1G	Other health e.g. osteopaths
D1H	Vet
D2A	Cinema, concert hall
D2B	Dance centre, gym
D2C	Indoor leisure including bingo, night club
D2D	Outdoor sport & leisure
D2E	Indoor sport (sports hall etc
D2Z	D2 no further category
SUIC	Amusement centre
SUID	Laundrette
SUIL	Fire or ambulance station
SUIM	Court house
SUIN	Cemetery, crematorium
SUIU	Hostel

4. Summary

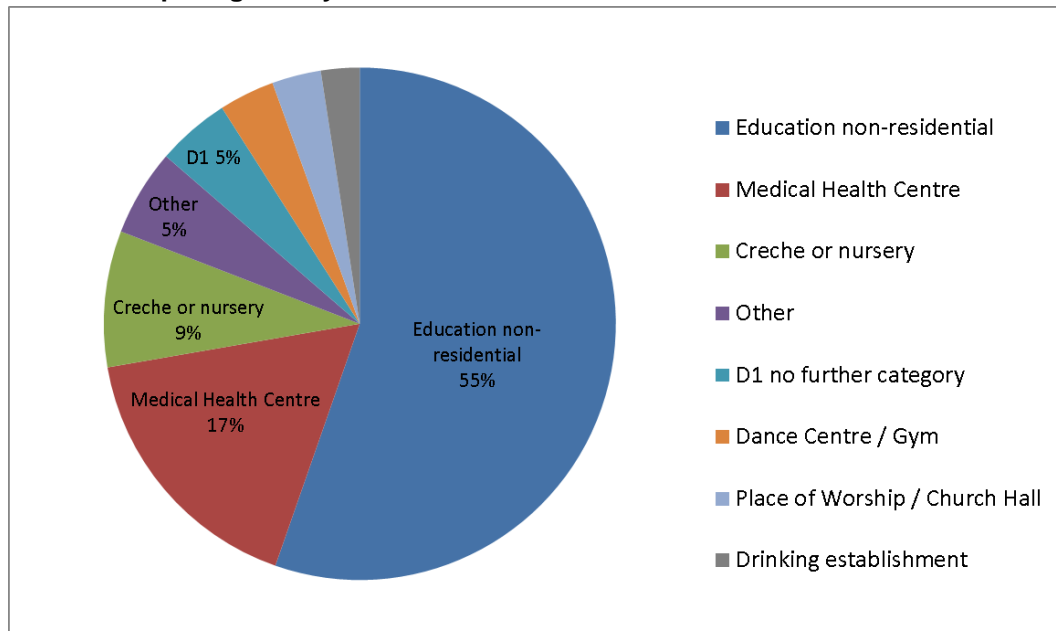

4.1 Over the six years between 2010/11 to 2015/16 the general trend is an overall gain in social or community infrastructure floorspace. Overall there was over 31,500 sqm of net floorspace created for social or community uses.

Table 2: Gain and Loss of Floorspace

Financial year	Floorspace gained m2	Floorspace lost m2	Total
2010/11	6,779	977	5,802
2011/12	6,372	1,190	5,182
2012/13	11,736	8,574	3,162
2013/14	9,501	1,578	7,923
2014/15	6,165	1,992	4,173
2015/16	6,693	1,261	5,432
Total	47,246	15,572	31,674

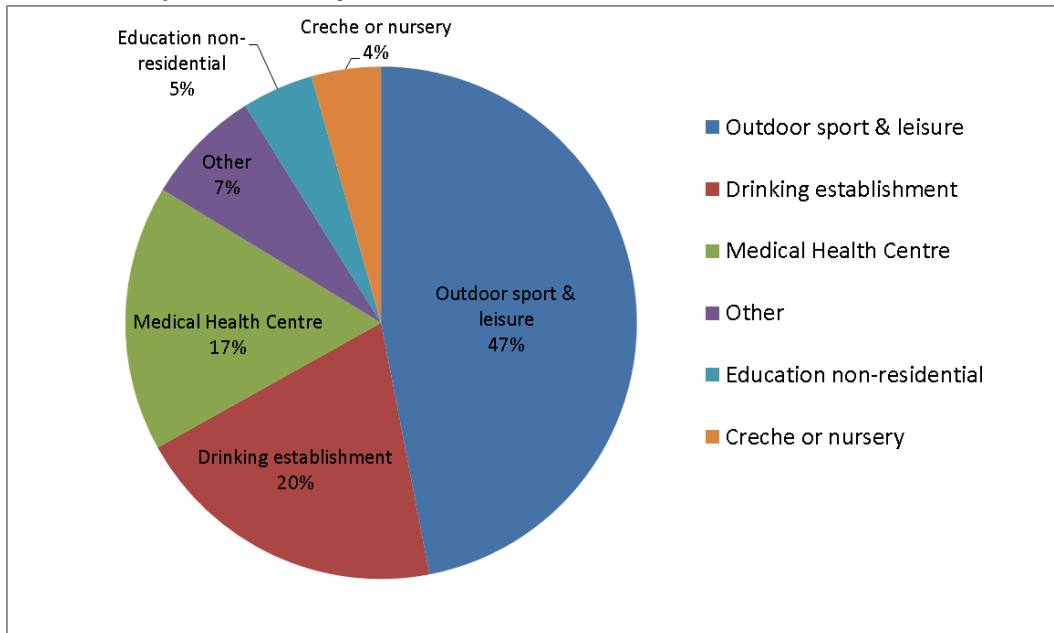

4.2 Overall the greatest increases were in educational floorspace (D1A) at 55% of the total gains in floorspace. This was largely as a result of a number of large scale school expansion projects in the period. Other large gains were in Medical Health Centres (17%) and Crèches or Nurseries (9%). Table 3 details the floorspace gains by use class.

Figure 1: Floorspace gains by Use Class 2011 - 2016

4.3 The greatest losses were in outdoor sport and leisure, and drinking establishments. For some types of use, some loss in floorspace was outweighed by overall gains, including for nurseries and health centres.

Figure 2: Floorspace losses by Use Class 2011 - 2016

4.4 [Publication Local Plan Policy LP 28 – Social and Community Infrastructure](#) states that loss of social or community infrastructure will be resisted. Proposals involving the loss of such infrastructure will need to demonstrate clearly; that there is no longer an identified community need for the facilities or they no longer meet the needs of users and cannot be adapted; or that the existing facilities are being adequately re-provided in a different way or elsewhere in a convenient alternative location accessible to the current community it supports, or that there are sufficient suitable alternative facilities in the locality; and the potential of re-using or redeveloping the existing site for the same or an alternative social infrastructure use for which there is a local need has been fully assessed. This continues the approach that was set out in the [Development Management Plan Policies DMSI1 and DMSI2](#), and [Core Strategy Policy CP16](#).

Development pressures and high land values in the borough mean there is pressure to redevelop sites and it can be difficult to find new sites for community use, especially for use by voluntary groups. Consequently the potential of re-using, refurbishing or redeveloping existing sites for continued social or community infrastructure use must be assessed in order to preserve a sufficient range and amount of such infrastructure across the borough.
