Subject: Station Road Teddington - potential mid rise development

[REDACTED]

I write to object to a mid rise development along Station Road from the garden centre and the Teddington Business park on the grounds that a line of buildings at this height would change the character of the town - it would not conserve or enhance it and there would be significant impact on the light [REDACTED]

[REDACTED]

I would not object to any development of two stories.

Kind regards

Angela Hogg
